Introduction

The internet is great, but accessing the internet remains an affordable privilege, courtesy of autocratic and centralized service providers. DATRO is a consortium of free, publicly available, democratic and decentralized technologies which enable almost everyone, everywhere to access to the internet, for free and as a human right. This publication detailsthe DATRO Consortiums (1) Master shareholders register, (2) Base-interest rates (Accruals & Compounding) and (3) Investment Activity (Summary & Detailed ‘Mini-Statements’)

This report is produced semi-autonomously as part of the DATRO Consortiums transition from web-2.0 to web-3.0. In web 2.0 the shareholders register and investment activities would be compiled centrally and manually and submitted to a pre-existing societies, pre-existing framework e.g. .gov TLD, central bank etc. With web 3.0 the DATRO Consortium is able to operate as a cryptocurrency/ blockchain-based, Decentralized Autonomous Organisation (DAO). Or further still a DAS (D.A Society) e.g. fully decentralized with full anonymity and “smart contract” autonomy (self-administering/ governing (“liquid democracy” tokenized voting)).

RELEASE NOTES AND NOTICES

This section provides information about what is new or changed. It also contains urgent issues, documentation updates, maintenance and new releases. ‘Updates’ are the term used to describe significant changes to our public source code and/or records.

1.1 This Release (Version 0.0.9)

- **2021-05-14** - Limiting the number of older versions/older version release notes (referenced in the latest release) to three. To view older notes look back 3 semantic versions in the archives/ “wayback” e.g. <https://wayback.datro.world>
- **2021-05-14** - *Stopped using names of months in releasenotes and used numbers instead - More technical but it aligns better. Backdated this formatting too e.g. ‘2021-May-10’ > ‘2021-05-10’*
- **2021-05-14** - *The indexing and layout of v0.0.7 (and the archived copy of v0.0.8) was improved, making the glossary brief and the navigation simpler*
- **2021-05-14** - *The proposed (backdated and pre-revenue) base rate of interest will reduce by a decimal place this quarter. To be revisited once the consortium is post-revenue*
- **2021-05-14** - *Minor releasenote edits to v0.0.8 before archiving it - ‘This Release’ was a version behind and v0.0.7 was missing from ‘Older Versions’*

1.2 Older Versions

Inherent with the update and re-release of this report is the inclusion of a reference to a downloadable, archived copy, of the previous report. In the table below the last entry should display a link to an archived copy of the last report, with an archive date matching the publication of this newly published report. The title of the download link may differ from the filename. This is mainly to keep the filename from overflowing in the table below. Latest releases mention the last three semantic versions only. Older versions can be located in the DATRO Consortiums [Wayback](#) Archive.

1.2.1 Version 0.0.8

- **2021-05-09** - Fixed issue with cells numbering format which put commas in the data and effected the csv comma scrape, resulting in some blank cells
- **2021-05-08** - Stopped using semantic version '0.1.x'. Using '0.0.x' instead. And backdated when referencing older versions too e.g. 0.1.6 is now 0.0.6 etc

1.2.2 Version 0.0.7

- **2021-04-08** - Addressed issues from last document release

1.2.3 Version 0.0.6

- **2020-06-11** - Added dates to the changelogs under each version - which DATRO is now implimenting on all source code changelogs and document releasenotes
- **2020-06-10** - Remove the interest segment, since the additional data was causing confusion - The objective of this report was to keep it simple
- **2020-05-12** - Changed document title from 'WRT Tokens' to 'DATRO Consortium - Investors (Detailed)'
- **2020-02-25** - Document file structure updated to a uniform format across the entire document library e.g. path/{'latest' or '0-0-0'}
- **2020-01-01** - Last remaining WIN Token account (ID:300) migrated to WRT as per T&C's (WIN Token scheme is now terminated)
- **2019-11-14** - D. Allen made contact to query his account. A correction was made
- **2019-11-10** - C. & A. Doick made contact to query their account. A correction was made
