1 Release notes

1.1 This release (version 1.0.0)

- **2026-Oct-23** - Carried over to the docs library from Legal Wiki page 1578 (last modified 2026-10-21 19:44:08 UTC). The page text, dates and references are as on the wiki. Links to wiki pages lead to the same page on research.bucklerfamily.estate; images are links to their files on the wiki.

1.2 Older versions

None yet.

2 Record

This material now lives at https://fcg.bucklerfamily.estate/case/european-court-human-rights-echr-archives-forensic-review**.**

Page ID: 1578 · **Title:** European Court of Human Rights / ECHR Archives — Forensic Assessment · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 0.1.1 · Editing Protocol

Chronology and catalogue links — assessed 10-10-2026: See the Institutional Involvement Roadmap (1877–2026) for the date-ordered institution, people and evidence sequence. The reported 1988 Cadw-to-Minister spot-listing letter has its own placeholder at GHF-E152; the original has not been attached to that page as at 10-10-2026. A placeholder records an evidence gap, not the letter's contents.

2.1 Forensic Assessment — European Court of Human Rights / Archives

Scope: the ECHR archive/custodial function relating to Application 14464/88.

2.1.1 Established role

The archive record is relevant to the survival, destruction and metadata of the historic application. The current project record states that the underlying case file was destroyed under the Court's retention policy.

2.1.2 Forensic control test

Separate three things: (1) what the application and admissibility decision establish; (2) what archival metadata survives; and (3) what the destruction policy means. Destruction of a file is not evidence that its contents favoured either party. ?

2.1.3 Current finding

As at 10-10-2026, the material reviewed does not establish archival wrongdoing. This is not a finding that no archive involvement or records gap exists. The proper response to the destroyed record is controlled archival reconstruction, not invention of its contents.

2.1.4 Human action

Retain the application number, decision date, archival confirmation, retention/destruction policy and any surviving index or correspondence. Legal counsel should determine whether any present Strasbourg route is procedurally viable; domestic title and registration work remains primary.

Acceptance: a complete surviving archive trail is catalogued with explicit limits on what the destroyed file can no longer prove.

2.2 Institutional appearance timeline — linked source index

Coverage rule: this is a chronological navigation map of published Wiki source pages found by searching the current site index for "European Court of Human Rights". Every event label links directly to the page containing the source. The page is intended to avoid duplicating source narratives. It records mention/appearance, not culpability. The displayed date is a source/title date cue, not automatically the date on which the named institution acted. This matters for newspaper stories, later summaries and titles naming more than one event; open the source before attributing an act. Search indexing is a discovery aid, not proof of exhaustive coverage. ?

Source date cue (not necessarily institutional action date)	Event / source — open evidence	Record class
6 December 1988	GHF-E090-N10 — "Farmer fails in final eviction hearing" (Western Mail, 6 December 1988)	Published Wiki evidence page
14 April 1989	GHF-E145 — European Commission of Human Rights application 14464/88 and the 14 April 1989 inadmissibility decision	Published Wiki evidence page

2.2.1 Records-access register appearances — direct row links

Rows below match the institution's name or an alias in the reply register's sender/reference or recorded description. A match shows an appearance in the records trail, not necessarily an act by this institution.

No matching reply-register row was found for this name/alias set. That is not evidence that no correspondence exists; broaden the alias search when new records are added. ?
