Chronology and catalogue links — assessed 10-10-2026: Use the Institutional Involvement Roadmap (1877–2026) for the date-ordered institution/people/evidence sequence. The reported 1988 Cadw-to-Minister spot-listing letter has its own catalogue placeholder at GHF-E152; the original has not been attached to that page as at 10-10-2026. A placeholder records an evidence gap; it does not establish the letter's contents or misconduct.

2.1 Forensic Assessment — HM Courts & Tribunals Service

Scope: HMCTS as present court-records administrator/custodian, not as the historic merits decision-maker.

2.1.1 Role

The current HMCTS record-search programme is important because the relevant litigation predates current electronic case management. A search of a modern system cannot by itself establish that a historic paper file never existed.

2.1.2 Forensic control test

Obtain the search scope, central/national archive search, retention schedule, transfer/disposal history and any surviving index for the 1955, 1962, 1974 and 1984–87 proceedings. Record precisely what was searched.

2.1.3 Current finding

As at 10-10-2026, the material reviewed does not establish misconduct by HMCTS. This is not proof that every historic file or records-search issue has been resolved. The active issue is records recovery and a defensible explanation where a file cannot be located.

2.1.4 Human action

Follow the outstanding HMCTS request, seek escalation to historic records/archive staff where necessary, and place every response into the evidence-access chronology. The existing 2 October 2026 extension should be tracked to substantive outcome.

Acceptance: a file-by-file search/retention outcome exists for every requested historical proceeding.

2.2 Institutional appearance timeline — linked source index

Coverage rule: this is a chronological navigation map of published Wiki source pages found by searching the current site index for "HM Courts & Tribunals Service". Every event label links directly to the page containing the source. It avoids duplicating source narratives. It records mention/appearance, not culpability. Dates are transcribed from page titles where available; "Date not explicit in title" means the linked source must be consulted. Search indexing is a discovery aid, not proof of exhaustive external coverage. [?]

Date shown by source title	Event / source — open evidence	Record class
2 October 2026	GHF-E106-R02 — HMCTS National Support Unit, extension email for 260904007, 2 October 2026	Records-access response

2.2.1 Records-access register appearances — direct row links

Rows below match the institution's name or an alias in the reply register's sender/reference or recorded description. A match shows an appearance in the records trail, not necessarily an act by this institution.
