Chronology and catalogue links — assessed 10-10-2026: See the Institutional Involvement Roadmap (1877–2026) for the date-ordered institution, people and evidence sequence. The reported 1988 Cadw-to-Minister spot-listing letter has its own placeholder at GHF-E152; the original has not been attached to that page as at 10-10-2026. A placeholder records an evidence gap, not the letter's content or proof of misconduct.

2.1 Forensic Assessment — Home Office

Scope: Home Office involvement only where a concrete historical policing/public-order/security record is identified.

2.1.1 Current evidence position

The materials reviewed so far do not establish a Home Office decision that determined the Great House Farm title,

possession or demolition. The project therefore does not attribute a substantive historic role to the Department merely because central government appears elsewhere in the wider record.

2.1.2 Forensic control test

Only a specific identified file, correspondence trail or delegated function should bring the Home Office into the substantive accountability chain. Any claimed involvement must identify date, officer/role, legal function, information received and action taken.

2.1.3 Current finding

As at 10-10-2026, the material reviewed does not establish Home Office wrongdoing or an operative role in the historic events. This is a source-limited assessment, not proof that no relevant record exists.

2.1.4 Human action

Do not spend further project effort here unless a court, police, Welsh Office or records response identifies a concrete Home Office record. If such a lead appears, create a targeted request rather than a broad enquiry.

Acceptance: route remains parked unless a specific documentary lead emerges.

2.2 Institutional appearance timeline — linked source index

Coverage rule: this is a chronological navigation map of published Wiki source pages found by searching the current site index for "Home Office". Every event label links directly to the page containing the source. It avoids duplicating source narratives. It records mention/appearance, not culpability. Dates are transcribed from page titles where available; "Date not explicit in title" means the linked source must be consulted. Search indexing is a discovery aid, not proof of exhaustive external coverage. [?]

2.2.1 Records-access register appearances — direct row links

Rows below match the institution's name or an alias in the reply register's sender/reference or recorded description. A match shows an appearance in the records trail, not necessarily an act by this institution.

No matching reply-register row was found for this name/alias set. That is not evidence that no correspondence exists; broaden the alias search when new records are added. [?]
