

File 63.24

Cogan Pill  
nd  
Nov 22 ~ 1931.

This spear head was found  
a Handought Church Farm  
when digging foundations  
for some new buildings  
about 1858. The spur  
was also found. About  
6 skeletons of big men  
were also found in same  
place, all buried with a  
lot of shells, limpet or cockle.  
They were reburied in a  
large hole near the stile on South  
side of Church. Uncle Eddie  
remembers going up to see  
these when a small boy.
