Page ID: 1570 · **Title:** Archaeology Data Service — Forensic Assessment · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 0.1.1 · Editing Protocol

Chronology and catalogue links — assessed 10-10-2026: See the Institutional Involvement Roadmap (1877–2026) for the date-ordered institution, people and evidence sequence. The reported 1988 Cadw-to-Minister spot-listing letter has its own placeholder at GHF-E152; the original has not been attached to that page as at 10-10-2026. A placeholder records an evidence gap, not the letter's contents.

2.1 Forensic Assessment — Archaeology Data Service

Scope: ADS is assessed only as an archival/data-access actor.

2.1.1 Role

ADS may provide discoverability and access to archaeological reports or datasets relating to Great House Farm / Llandough. It is not a title adjudicator, planning authority or heritage decision-maker.

2.1.2 Forensic control test

Determine which Great House Farm datasets/reports are deposited, their depositor, deposit date, metadata, accession identifiers, file versions and stated provenance. The key question is whether ADS preserves an independent trail showing what archaeological work was commissioned, reported and deposited.

2.1.3 Current finding

As at 10-10-2026, the material reviewed does not establish wrongdoing by the Archaeology Data Service. Repository results are limited to the date, scope and holdings searched. Any absence from ADS is only a finding about that repository's present searchable holdings unless the deposit/retention trail proves more.

2.1.4 Human action

Request a targeted search for Great House Farm, Tŷ Mawr, Llandough and relevant project identifiers, asking for deposit metadata and file lineage rather than a general historical narrative.

Acceptance: a documented ADS search result with accession/deposit metadata and copies/links for every relevant item.

2.2 Institutional appearance timeline — linked source index

Coverage rule: this is a chronological navigation map of published Wiki source pages found by searching the current site index for "Archaeology Data Service". Every event label links directly to the page containing the source. It avoids duplicating source narratives. It records mention/appearance, not culpability. Dates are transcribed from page titles where available; "Date not explicit in title" means the linked source must be consulted. Search indexing is a discovery aid, not proof of exhaustive external coverage. [?]

Date shown by source title	Event / source — open evidence	Record class
Date not explicit in title	Archaeology and Heritage	Published Wiki evidence page
Date not explicit in title	FOI & Public-Authority Reply Register — every reply email and its attachments	Published Wiki evidence page
Date not explicit in title	Anomalies Register — Lines of Enquiry	Published Wiki evidence page
1877	Llandough (Penarth) — Cydfin / Tŷ Mawr and Pre-1877 Manorial Evidence	Published Wiki evidence page
Date not explicit in title	Records Access Chronology	Published Wiki evidence page

2.2.1 Records-access register appearances — direct row links

Rows below match the institution's name or an alias in the reply register's sender/reference or recorded description. A match shows an appearance in the records trail, not necessarily an act by this institution.

Date	Correspondence / register item (click to open)	Reading rule
29 Sep – 2 Oct 2026	R48 — Replies to the 28 Sep 2026 preservation notices	Register row contains a name/alias match; inspect the linked row to distinguish sender, recipient and incidental mention.

Cross-reference — Cedwyn / Cydfin place-name evidence: References on this page to variants such as Cedwyn, Cydfin, Cedfin, Cydwin or Tŷ Mawr should be read alongside the GHF-E173 complete reference index and, where relevant, the Llandough (Penarth) pre-1877 manorial evidence page. Name similarity is a research lead, not proof of identical location, boundaries, ownership or title.

2.3 Page version & change log
