# 1 Release notes

## 1.1 This release (version 1.0.0)

- **2026-Oct-23** - Carried over to the docs library from Legal Wiki page 1830 (last modified 2026-10-21 19:53:59 UTC). The page text, dates and references are as on the wiki. Links to wiki pages lead to the same page on research.bucklerfamily.estate; images are links to their files on the wiki.

## 1.2 Older versions

None yet.

# 2 Record

**This material now lives at** https://fcg.bucklerfamily.estate/case/npcc-forensic-institutional-review**.**

**Page ID:** 1830 · **Title:** National Police Chiefs' Council (NPCC) — Forensic Assessment · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 1.0.0 · Editing Protocol

**Chronology and catalogue links — assessed 10-10-2026:** See the Institutional Involvement Roadmap (1877–2026) for the date-ordered institution, people and evidence sequence. Related heritage-file lead: GHF-E152 — reported Cadw letter to the Minister (1988; original awaited).

**Scope:** National Police Chiefs' Council (NPCC), its present-day records-search involvement, and the evidential question concerning any surviving national-policing records about Great House Farm, BP Properties Ltd v Buckler [1987] EWCA Civ 2, and the 1988 possession-enforcement/demolition events.

**Assessment boundary:** This review separates (1) documented present-day records-access decisions, (2) historical events about which information was requested, and (3) evidence of actual historical operational involvement. As at 10 October 2026, the three NPCC letters establish present-day records-access activity. They do not establish a historical

NPCC operational role in 1988; this assessment is limited to these letters and evidence reviewed to date. Inclusion here is not a finding of wrongdoing, concealment, or historical deployment. [?]

## 2.1 Institutional appearance timeline — direct evidence links

Select an event to open the Wiki evidence page containing the relevant source. Entries distinguish an institution's own act or response from a historical event that was merely the subject of a later records request.

| Date | Documented appearance / evidence item | Evidence status |
|---|---|---|
| 31 July 1987 | GHF-E141 — Court of Appeal judgment: BP Properties Ltd v Buckler | As at 10 October 2026, the judgment page itself records the Court of Appeal proceedings, not NPCC activity; its later inclusion in an NPCC records request is a separate, modern records-access event. This conclusion is limited to this judgment page and material reviewed to date. [?] |
| 29 April–May 1988 | GHF-E090-N07 — "Chainsaw farmer vows to fight on" | As at 10 October 2026, this contemporary press source documents the reported 1988 episode but does not identify NPCC or NaCTSO as participants. This conclusion is limited to this source and the evidence reviewed to date. [?] |
| 29 November–6 December 1988 | 1988: Possession and Demolition · GHF-E090-N10 — Western Mail, 6 December 1988 | Historical event under enquiry; dates and primary enforcement records remain qualified on the event page. [?] |
| 16 September 2026 | GHF-E106-R49 — NPCC FOI 3156/2026 response | NPCC's statement that no information within scope was identified in its accessible searches and that it held no custody/transfer/disposal record about the requested matters. [?] |
| 29 September 2026 | GHF-E106-R50 — internal reviews 3157/2026 and 3176/2026 | Two decisions upheld; they must not be treated as one decision. The letter records the reviewer's conclusions, not underlying search logs. [?] |
| 9 October 2026 | GHF-E106-R51 — FOI 3065/2026 search-disclosure response | Discloses two search terms, five named repositories/sources and four consulted functions; says separate Q4–Q6 records are not held; supplies the retrieval request as goodwill. [?] |
| 1 October 2026 — thread record to verify | WhatDoTheyKnow — BP vs Buckler 1987/1988, incoming message 3588013 | External thread linked for direct verification. The full message and its attachments must be checked before recording its substantive content. [?] |

## 2.2 Forensic control points

- **Search-term reconciliation:** 3156 says ACPO catalogues showed no references to the farm, case or operation; 3065 reports the terms "Great House Farm" and "Llandough". The disclosed wording does not establish whether searches also used "Buckler", "BP Properties", the case citation, or operational descriptions. [?]
- **Q4/Q5 record distinction:** 3065 says no information is held for search logs/instructions or recorded results, but supplies a retrieval email and says results were captured by email and disclosed through previous responses. Clarify whether this means there was no formal search log/consolidated result schedule, and identify the individual response emails that make up the recorded results.
- **Custody trail:** the NPCC says it holds no transfer, archive, retention or disposal information. This is a statement about NPCC holdings, not proof that records never existed or are not held by a local force/archive. [?]
- **Institutional boundary:** the retrieval email names NaCTSO and NPCC functions as current search leads. As at 10 October 2026, the retrieval email shows modern records-search involvement; it does not establish historical counter-terrorism or military participation. This is limited to the material reviewed to date. [?]
- **Review boundary:** review 3157 concerns whether the original 2 September correspondence was a sufficiently identifiable FOI request; review 3176 concerns the substantive 3156 response. Keep the issues separate.

## 2.3 Cross-links to related institutional and source records

- NCTSO — Forensic Assessment
- South Wales Police — Forensic Assessment
- FOI & Public-Authority Reply Register
- Source Conflicts Register
- Missing Records Register

## 2.4 Current finding

The NPCC's present-day searches and decisions are now documented by primary-source links. As at 10 October 2026, the records reviewed do not establish an NPCC operational role in 1988, the non-existence of all relevant historical policing records, deliberate concealment, or the identity of an alternative current custodian. This is a dated evidential status, not a claim that contrary evidence cannot later emerge. The next tests are to inspect and catalogue every individual retrieval response, verify the linked WhatDoTheyKnow message and attachments, and pursue the relevant local force/archive record trail independently. [?]

### 2.4.1 Records-access register appearances — direct row links

The three entries below are the NPCC's own responses and review letter in the project register. Select a row to open the corresponding entry. This records modern records-access involvement; it does not establish historical operational deployment. [?]

| Letter date | Register entry | Direct primary-source page |
|---|---|---|
| 16 September 2026 | R49 — FOI 3156/2026 | GHF-E106-R49 — NPCC response |
| 29 September 2026 | R50 — internal reviews 3157/2026 and 3176/2026 | GHF-E106-R50 — review letter |
| 9 October 2026 | R51 — FOI 3065/2026 search disclosure | GHF-E106-R51 — search-disclosure response |

## 2.5 Page version & change log

**Current version:** 1.0.0

| Version | Date (UTC) | Editor (human or agent name) | Change | Source / evidence |
|---|---|---|---|---|
| 1.0.0 | 2026-10-18T15:41Z | Sion's Tab agent | Footer standardised; no content change | Editing Protocol, 18 Oct 2026 |

Agents and editors: follow the Editing Protocol.
