Roadmap / catalogue cross-reference — 10-10-2026: Follow the reported departmental handover and 2026 correspondence chain in the Institutional Involvement Roadmap. The reported 1988 Cadw-to-Minister spot-listing letter is separately catalogued as GHF-E152; its exact reference and custody remain to be verified.

2.1 Forensic Assessment — Welsh Office / Wales Office

Scope: historic/current Wales Office functions relevant to central-government oversight and records.

2.1.1 Role

The Wales Office is not treated as the body that determined private title. Its relevance arises only where its records

show ministerial/departmental awareness, correspondence, policy oversight or transfer/custody of records relevant to the case.

2.1.2 Forensic control test

For IR/26/16 and any related request, identify the exact record category, search scope, responsible policy area, exemptions, retention/transfer status and substantive answer. Distinguish a departmental records problem from the merits of the underlying land claim.

2.1.3 Current finding

As at 10-10-2026, the material reviewed does not establish wrongdoing by the Wales Office. This is not a finding that the office had no involvement; the assessment is limited to the particular correspondence, search and transfer issues identified. ? The current objective is to obtain a reasoned answer and preserve any central-government record that can establish chronology or knowledge.

2.1.4 Human action

Chase IR/26/16 to outcome, require a record-by-record explanation for any refusal/absence, and identify any transfer to The National Archives or successor department.

Acceptance: substantive result logged with the exact documents held/not held and escalation route. [?]

2.2 Institutional appearance timeline — linked source index

Coverage rule: this is a chronological navigation map of published Wiki source pages found by searching the current site index for "Wales Office". Every event label links directly to the page containing the source. It avoids duplicating source narratives. It records mention/appearance, not culpability. Dates are transcribed from page titles where available; "Date not explicit in title" means the linked source must be consulted. Search indexing is a discovery aid, not proof of exhaustive external coverage. [?]
