Parcel-A scope correction — 9 October 2026. The family's established case is that the 1877 arrangement took effect in 1928, passing the full Parcel A—including the north forest and south-east ground later registered as VG41—to the Williams family. Parcel B was the separate eastern agricultural fields. The already-obtained 1939 agreement/plan depicts Parcel B only. The 1949–1953 unwritten agricultural tenancy was later treated by the Court of Appeal as a real protected periodic tenancy; on the 1939 plan its scope followed Parcel B and did not make Parcel A permissive (an argument still to be tested). A separate further attempt to make Frederick a tenant in 1954 is identified as unsuccessful and is tracked at GHF-E182 (original source pending). Mary (Nancy) Williams, formerly Buckler, reported the title

deed missing in 1950–52 (witness statement c.1974, Mary (Nancy) Williams testimony). [SOURCE PENDING] The 4 July 1955 enforcement of Parcel B also seized the Parcel-A north forest and south-east green under "whole farm" wording. Mary's defence of the remaining house/buildings/garden group was not the limit of her Parcel-A title claim. The control chain below must follow this chronology; document review is for authority, descriptions, responsibility and later title/remedy. [?]

Limitation clock — 1928, 1940, 1952, 1955 and 1962. Twelve years was already the statutory period for recovery of land under section 1 of the Real Property Limitation Act 1874; it did not begin in 1940. If Parcel-A possession became adverse in 1928, the family's alternative theory is potential expiry around 1940. If it became adverse only in 1940, twelve years would run to about 1952. Rent non-payment alone does not prove the date of accrual or adverse possession. A failed 1954 proposal would not itself undo a period already completed; the 1955 order against Frederick and 1962 order against Frederick and Mary require independent analysis of the land covered, title pleaded, issues actually decided and any binding/preclusive effect. The accessible 1987 appeal report does not mention 1954; it mentions a 1952 letting letter and nevertheless recognises a protected periodic tenancy for Frederick. Track the separate 1954 event at GHF-E182 as source-pending.

NEW PARADIGM — CASCADE OF ACCEPTED PREMISES

The investigation should not begin by assuming a conspiracy between institutions. It should ask: **Where did the first materially wrong, incomplete or unconfirmed proposition enter the chain; who introduced it; who relied upon it next; what independent check should have detected it; and what evidence shows whether that check occurred?** A single early error can be amplified by later institutional reliance without every later actor knowing that the underlying premise was defective.

2.1 Control-point chain

Control point	Forensic question	Primary evidence required	Responsibility question
1. Historic land identity	What physical holding did Great House Farm / Tŷ Mawr / Cedfin denote at each date?	Estate maps, plans, conveyances, 1877/1924 /1938/1939 records, tithe /OS material	Who first defined or changed the relevant land description?
2. Ownership / tenancy	Was the farmhouse/curtilage subject to the same legal interest as the agricultural fields?	Original tenancy, surrender /re-grant, plans, rents, conveyances, Bute records	Who asserted the legal status and on what document?
3. Acquisition chain	How did the relevant interest enter the WGR/BP chain?	1938 conveyance, 1969 root, 1971 abstract, 1975 conveyance and plans	Who represented that title existed; what did they know about competing claims?
4. First registration	What exact land was registered in WA231076 and WA240304 and on what title class?	FR1/1E, 1C, A13/DL, title editions, plans, requisitions, certificates	What did the applicant certify and what did the registrar verify?
5. 1984 registration activity	What changed on 13 January 1984 and why?	A3 application, new register edition, 12 May 1983 correspondence, D23 and related file	Who requested, examined and authorised the change?
6. 1987 amalgamation	Did merging WA240304 into WA231076 alter or obscure the physical/title identity of the farmhouse?	Amalgamation application and plan, pre/post register editions, examiner/requisition trail	Who proposed the merger and what independent check was performed?
7. Court evidence	What exact title/parcel propositions were actually placed before the 1984–87 court?	Pleadings, disclosure lists, trial bundle, plans, witness statements, judgments	Who supplied each material premise; was contrary material known?

8. Enforcement	How did the 1955 "whole farm" wording and enforcement of Parcel B apply to the Parcel-A north forest and south-east green said to have been seized (SOURCE PENDING)?	1955/1962/1974 orders, plans, warrants and execution records, mapped to full Parcel A and separate Parcel B	What formal authority was cited, who executed it, what was described in the title chain, and what current remedy remains?
9. Heritage decision	What evidence did Cadw have when the December 1988 decision was made?	29 July photographs, assessment records, RCAHMW 1974 survey, HER/SMR, correspondence	Who made the decision and what safeguards were available?
10. Planning / redevelopment	What property was represented to the planning authority and what archaeological/heritage controls followed?	Planning file, ownership certificates, 89/01396/OUT, 92/00671/RES, conditions and appendices	Who certified, recommended or approved each material step?
11. Record custody	Where did the records go, and can their lifecycle be demonstrated?	Retention schedules, transfer/disposal logs, accession histories, search statements	Which custodian had control when each record was lost or not found? [?]
12. Present remedy	What current decision, correction, alteration, indemnity or disclosure route can still provide a remedy?	2026 decisions, complaint records, HMLR guidance, current title and evidence recovered	Which present decision-maker can remedy which established consequence?

2.2 Failure-mode tests

- **Identity failure:** the wrong parcel, person or legal entity was identified.
- **Evidence failure:** a material document existed but was not obtained, considered or disclosed.
- **Authority failure:** a person acted without the required power, delegation or instruction.
- **Verification failure:** a decision-maker relied on a representation without an appropriate independent check.
- **Boundary failure:** one legal instrument was treated as covering land that another document treated differently.
- **Record-lifecycle failure:** the documentary trail needed to audit a decision cannot now be demonstrated.
- **Remedy failure:** a present institution receives credible new evidence but does not identify or use the appropriate available mechanism.

2.3 Party-specific accountability rule

Each failure mode must be tested on the dedicated actor page for the particular institution, company or individual concerned. Cross-references identify chronology or evidence only; they do not merge the assessments. A person is not treated as personally liable merely because they worked for an organisation, signed a document or appear in a chain. The evidence must establish their actual role, act or omission, authority, knowledge where legally relevant, and connection to the consequence.

2.4 Decision outcomes

Every control point should ultimately be classified as **confirmed correct**, **defect established**, **defect plausible but unproved**, **not material**, or **unresolved because primary evidence is missing**. "Unresolved" is not a finding of fault. [?]

2.5 Immediate evidence programme

1. Reconcile WA231076 and WA240304 by exact physical extent and title class.

2. Obtain and analyse the A13/DL and 1971 abstract provenance.
3. Explain the 13 January 1984 A3 and register edition.
4. Reconstruct the 1987 amalgamation immediately before the Court of Appeal.
5. Obtain the 1939 plan and 1949 surrender/re-grant evidence.
6. Obtain the 1955 and 1962 court files and compare the land covered.
7. Obtain the 1974 enforcement/licence file.
8. Obtain the family's complete 1984–87 litigation file and compare evidence disclosed to evidence now recovered.

2.6 Related controlled records

Fresh Paradigm — Independent Cross-Review · Title Chain / Parcel A–B Matrix · 1987 Judgment Reconstruction Matrix · Evidence-to-Court Matrix · Forensic Reviews — Institutions, Companies & Individuals · PRINCE2 Project Plan

Cross-reference — historical name variants: For references to Cedwyn, Cedfin, Cydfin, Cydwin or Tŷ Mawr, consult the GHF-E173 Cedwyn / Cwm-Cedwyn reference index and the Llandough (Penarth) pre-1877 manorial evidence page. These are research leads; similarity of names does not itself prove continuity of land, boundaries, ownership or title.

2.7 Registration nexus — updated 15 October 2026

The critical unresolved link is not merely the date of the "root". It is the land-description and title chain across the 1938 WGR acquisition, the December 1969 WGR–BP Pension Trust conveyance, the 1975 BP Pension Trust–BP Properties conveyance, and the exact 1983 WA240304 registration extent. If the 1938 deed did not include Parcel A and no other effective instrument gave WGR title to it, a gap may exist upstream of the 1969 transfer. That inference depends on the operative deeds, plans and any earlier root evidence—not on the 1939 tenancy plan or the existence of possession orders alone. See the dedicated title-basis analysis.

High-level Cedwyn Estate theory cross-reference: The Cedwyn Estate / repeated parcel-capture hypothesis is a cross-cutting theory for this control-point chain. The test remains the identity of each polygon and the legal link between land, title, registration, court process, enforcement and remedy. A sequence of events becomes stronger evidence only when original records connect the same parcel and a material legal proposition.

2.8 Page version & change log

Current version: 0.1.1

Version	Date (UTC)	Editor (human or agent name)	Change	Source / evidence
0.1.1	2026-10-18T15:31Z	Sion's Tab agent	Footer standardised; earlier log rows carried into this table; no content change	Editing Protocol, 18 Oct 2026
0.1.0	2026-10-18T14:27:00+01:00	OpenAI-assisted maintenance agent (GPT-6)	Installed footer log; version tracking begins at 0.1.0; this does not reconstruct earlier revisions. CURRENT VERSION: 0.1.0.	Saved through WordPress API; public rendering not individually checked.
Legacy; version not recorded	2026-10-18 (rollout date; exact time not separately recorded)	OpenAI-assisted maintenance agent (GPT-6)	Installed this page-local append-only change log and agent instructions. Existing page content was not intentionally rewritten.	User-directed site-wide changelog standard. Saved via WordPress API; public rendering of this page not yet independently checked.
