Correction — 9 October 2026. The 1939 WGR–John Williams agreement and plan have already been obtained and analysed. Its plan depicts Parcel B only, not Parcel A. It is closed evidence, not a new retrieval task. The family's established title case is that the 1877 arrangement took effect in 1928 and full Parcel A includes the north forest and south-east ground later registered as VG41. [SOURCE PENDING] Both were seized on 4 July 1955 while WGR enforced possession of Parcel B. The current capture schedule focuses on the 1955 description/execution, VG41 source file, and the downstream title chain. The 1938 conveyance is family-held; assess content/provenance and its availability during the 1986–87 litigation rather than treating it as an unlocated archive item.
