

Whistleblower Declaration and Testimony

Name: Sion Hywel Buckler (Former A/Sgt, Royal Corps of Signals)

Alias: unclehowell

Formal Address: Dinas Powys, Wales

Current Location: Exile between the Dominican Republic and Argentina (2014 – present); travelled back and forth to Britain from 2022 to 2025 as part of contractual work under the Welsh Government.

Family Location: Wife, daughter, and dog reside in the Dominican Republic - I'm currently in Argentina (until there's justice, a military coup or civil war in Britain)

Service Record: British Armed Forces (5 years 2002 - 2007), Welsh Government (2022–2024). This concludes my 22 year Oath of Allegiance !!!

Statement of Position

I, Sion Hywel Buckler, Former Armed Forces Soldier (2002-07)/ Oath Keeper 2002 - 2024 (Welsh government 2022 - 2024) - Formally declare that the current governing body of Great Britain e.g. the United Kingdom British Society - Now, and for at least 4 decades, has, in my personal and professional experience and estimation, operated as a terrorist organisation, both in conduct and consequence - Not a lawful, democratic British Society and/or Government. This declaration is based on my direct and sustained experience as a surviving (and still bonafide) target of state abuse, trespass, suppression, and systemic violence against myself, my child, my family, and our sovereign rights. Not to mention my participation, under orders, in the illegal Iraq war.

Grounds for Declaration

1. State-Sponsored Abduction, Grooming, Abuse and Enslavement of My Son

- **Date of Birth:** 6 October 2013
- **Place of Birth:** Harrogate Hospital, Yorkshire
- My son was abducted at 36 days old from our home in Stockeld Park, Leeds. This was parental abduction as it was his mother who ran off with him, right after myself and a guest at our home witnessed her physically abusing our child.
- Prior to this incident, my son's mum and I jointly submitted a letter of conditional acceptance to the registrar, posing lawful questions prior to registering his birth. To this day I have never received a response. Subsequently no lawful consent was given by me for this "UK" terrorist organization I belonged to, to govern or have my child. It was achieved by abduction and enslavement and forced fatherlessness instead of lawful consent. I am also excluded from his birth

certificate, despite this being my biological first born child and I was an active, willing and able father, even beyond the date of his abduction.

- I obtained and later provided police video evidence of my son's mum and family performing rituals on my son - following his abuse and abduction by his mum.
- The UK police responded by attempting to entrap, discredit, and silence me. They tried to provoke perjury in recorded calls, attempted to kidnap me, and labelled me a 'fantasist' in response to a formal complaint against their corruption and failed attempts to kidnap and criminalize me, instead of pursuing the child abductors and abusers shown in the video and documented footage and returning my abducted son to his home and father. There was also a failed attempt to frame me for terrorism so that the UK Regime could abuse counter-terrorism laws, to extradite me back from exile to silence me. A friend's police station in Derby was also raided and black helicopters circled my family's farm (a FOI request was made to the nearby StAthán airbase in response).
- My son's granddad (on his mum's side of the family) was later discovered to have been ejected from his teaching career for misconduct with children. As too his daughter also abused children she taught, all cases were covered up. Numerous attempts to generate loosh occurred too (if you believe in that) e.g. psychic energy from suffering - so the child molester would send me photos of him with my abducted 36 day old boy, while his corrupt police and courts, chased me up and down the country and around the world trying (and failing) to kidnap and silence me. - Courts attempted to silence me, threatened with imprisonment for harassment if I sent more emails to anyone, demanding to know how and where my abducted boy is OR at least obtain proof of life.
- To date (June 24th 2025 at the time of writing this) I am still not in receipt of this information. My son's whereabouts and mortality status remain kept from me. This leads me to believe they may still be trying to silence me and cover up what happened to him and/or his fate.
- These people and this rogue regime, need to be held to account.
- Justice for my son Milo, is monetized. Every court, lawyer, agency in Government wants money and offers no guarantee. I refuse to pay anyone for my abducted child back. Or access to him. Or information about him. This is exploitation of an abducted child, extortion and racketeering and I want no part of this dirty business. My son's mum and family paid everyone, and subsequently bought state-sponsored & court/ police protection to continue abducting, abusing and grooming children. It was reported their family continued to ruin the lives of other people, including children, as recently as 2022. One of my son's new ex boyfriends contacted me concerned for himself and reported my allegation of the family was an understatement of how bad it was for my abducted child. He then disappeared.

2. Corruption of Sovereign Withdrawal Mechanisms

- After entering exile in March 2014 (Dominican Republic), I sought to lawfully renounce membership from this corrupt terrorist organization - The UK Regime, likely in 2015.
- The UK Home Office Form RN, once a lawful means to withdraw from this “British Society”, has been corrupted over time.
- Historically, renunciation may have allowed a return to stateless or sovereign status - But is no more. Due to secret, unreported, unvoted changes to this process. Possibly not even by British nationals but a globalist cabal.
- By 2015, the process had been restricted to only those acquiring or intending to acquire another nationality — removing the lawful route to be sovereign and free.
- Thus, what was once a path to lawful non-consent is now a bureaucratic trap — a method to force individuals into perpetual governance.
- Consent to be governed is no longer affordable or revocable under this regime. It is subsequently, by my estimation, a terrorist organization - even untowards its own definition of a human trafficking terrorist organization.

3. Unlawful Acts Against Myself and My Property

- After my son was abducted my personal vehicle was stolen from my driveway; police refused to act.
- I was illegally evicted from my home at Stockeld Park without due process, orchestrated by my son’s mum’s family.
- I have been targeted with legal threats, attempts have been made to kidnap me posing as arraignment or arrest despite there being no lawful court summons or charges - followed by systematic silencing through kangaroo court hearings.

4. Family Targeting and Generational Harm

- **My Father:** Died in his early 40s following BP v Buckler (1987). A published newspaper article from the *South Wales Echo* dated 10 December 1988 explicitly references an allegation that he was killed. He lived with family at Great House Farm, Llandough, which was later demolished by BP Properties. Both his persecution was mentioned in the House of Lords, and it was acknowledged that BP Properties' conduct in South Wales caused distress to local families — notably mine. A Lord noted that shareholders in BP’s pension scheme would likely be alarmed to learn how my family was being bullied by BP Properties..
- **That record is now at risk of being destroyed, as UK parliamentary archives are being restricted or purged.**
- **My Grandmother:** Died as a result of poisoned hip implants and the COVID-19 vaccine.
- Additionally my home (40 Lombard St, Barry, in the Vale of Glamorgan) was taken by Manchester Building Society - Not as a result of arrears (any of which were paid) but as a consequence of me only willing to pay 2000 GBP in reminder letter fees instead of their demand for 3500 GBP. The bank's court application to the courts also stated it was not a human rights issue to take my home. In 2022

when returning from exile to care for my sick grandmother, I was refused housing while 94 homes were built nearby for those in the middle east we were sent to fight while I was a soldier.

- Perhaps my sons mums (apparently sadistic/ corrupt) family think they're safer from a genocide by doing what they do to a Christian like me and my son, but they're also white and anglo-saxon and British nationals and are next against a common enemy in my estimation. Like genocidal terrorism infiltrating and subverting our British Society and island.
-

Legal and Constitutional Position

- I reject this premise of administrative citizenship which resembles enslavement and total erasure of freedom and sovereignty - both of which should be inherent and inalienable and not benefits and privileges of membership to society, that can be afforded and revoked by said society, at will.
 - I believe British Society needs to return to resembling a British Society, not a genocidal, child enslaving, human trafficking terrorist organization
 - The option to register and renounce existed for good reason - it was a check balance - For a regime to systematically erode its own check balance is a concern in itself beyond the atrocities it commits after removing those check balances - The timelines are very clear. Systematically removed all check balances - started a holocaust of white, christian, anglo-saxon, British nationals.
 - The absence of mutual agreement, of much of the matters stated above, makes the regime culpable and liable for multiple incidents of **trespass** to say the least.
-

Call for Protection and Immunity

- Formal acknowledgement that me/ my family have been targeted/ persecuted by a **hostile regime - not resembling the lawful, democratic, British Society it once was (noting also I am Welsh and Welsh Speaking, not English!)**
 - Diplomatic immunity from the jurisdiction of the hostile UK Regime in lieu of the restoration (and recompenses) of mine and my families land, wealth, property and child and restoration of my peoples freedom and sovereignty. I want my land, property and child back. I want to be on my birthland, a country I fought in war to defend, without living under such a terrorist organisation.
-

Cultural and Demographic Concern

In addition to the personal and legal targeting I have documented, I believe there is a broader, more disturbing trend at play:

- My family is Welsh, White, Anglo-Saxon, Christian, and native to the British Isles.
- These identity characteristics — once integral to the cultural fabric of Britain — are now in measurable decline across all demographic statistics.
- I believe the UK Regime has been infiltrated and subverted by entities whose objective is not governance, but **cultural erasure** and **genocide** of the native British population. I believe this is the driving force behind how such crimes were permitted to occur against mine, my sons, my fathers and my grandmother's humanity. Evil is our enemy and has acted through the UK Regime over decades to my detriment. The UK Regime acts like our enemy.
- The treatment of my family — from multi-generational land dispossession to public abuse, forced exile, state-sponsored child abduction and abuse cover up, and medical harm — must be a **microcosm of a wider campaign**. It cannot all be a coincidence.
- This is not an isolated grievance. There are others like me. Others whose families were destroyed or scattered. Others who are not at liberty to speak.

“What’s happening to me, my family and people e.g. native Anglo-Saxon, Christian Britons — is not neglect. It’s orchestrated destruction. It fits the textbook definition of slow, decentralised persecution and genocide”

Final Statement

I have served the UK Regime under oath for 22 years. Leaving my military career with honours in 2007 and concluding my 22 years in Oath, fully- bonafide, in 2024 under the Welsh Government. I have never in my life been arrested or convicted of a crime, bankrupt, struck off as a company director - I have lived honorably. Almost not, as people have tried and failed for years to discredit and frame and criminalize me (2003, 2013,14,15,16). I have asked lawful questions and been met with terror, theft, exile and eventual silence. Now I am reading, after already being deplatformed and censored online, that public record archives are inaccessible and going missing, including Parliamentary records (that pertain to my BP vs Buckler case in 1988 if not the wider cover up of crimes against children in Britain).

I have not acted like the UK’s enemy. But it has and is acting like mine.

This document is a record of truth. I’m glad, to a reportedly unmanageable extent, the British Public and not continuing to stand for this and even the international community are, in 2025, waking up to the concerns I raise and detailed in this affidavit.
