Page ID: 3105 · **Title:** Information Commissioner's Office (ICO) — Forensic Assessment · **Evidence status:** Not yet labelled — see the Editing Protocol · **Version:** 1.0.0 · Editing Protocol

Assessed 14 October 2026. Scope: modern regulatory correspondence only. The ICO has no historical role at the farm. Inclusion is not a finding of fault.

2.1 Documented appearances

Date	Appearance	Source
21 July 2026	Family correspondence to the ICO.	Reply register, R28

10 August 2026	ICO letter IC-546505-W6P0: referral to other bodies and preservation of records for a legal matter are outside its remit; FOIA and the EIR do not require authorities to create information or give explanations.	GHF-E106-R28-A1

2.2 Current finding

As at 14 October 2026, the material reviewed does not establish wrongdoing by the ICO. The letter states the Commissioner's position on that correspondence. It is not a decision on any individual public authority's compliance, and it is not a finding about the underlying events. The catalogue page records that the operative wording still needs transcribing from the original.

2.3 Forensic control test and next step

Transcribe the letter, then note which specific refusals or non-responses the family may bring to the ICO as complaints under the correct statutory route (for example the Llandough Community Council section 12 refusal, see GHF-E170). **Acceptance:** the letter is transcribed and each authority-specific complaint route is logged with its date.
